The authors regret that there were two errors in the published article. In the results section of the Abstract, the data should be “154/184, 83.7%” and it should be read as following: We identified 184 attacks in 128 NMOSD patients with the mean age of 46.9 years at the time of the attack and female predominance (154/184, 83.7%). In addition, in the first paragraph of the Result section, the data should be “154/184, 83.7%” and it should be read as following: The majority of attacks were in women (154/184, 83.7%), with the mean age at the time of the attack of 46.9±14.5 years.

The authors would like to apologise for any inconvenience caused.
